Comment: ACTION ALERT: This is a dangerous bill which seeks to use the public health system to support advances in gun control. Firearms ownership is not a "public health" issue and efforts to push it in that direction are almost always rooted in a gun control agenda. If there was a valid reason to seek a state study on the true causes of crime and criminal activity including demographics, socio-economic factors, etc., then there would be no reason for all the "gun violence" or "gun control" focus on this bill. TFA will score this bill negatively for 2022 purposes.

Comment: ACTION ALERT: This is a dangerous bill which seeks to use the public health system to support advances in gun control. Firearms ownership is not a "public health" issue and efforts to push it in that direction are almost always rooted in a gun control agenda. If there was a valid reason to seek a state study on the true causes of crime and criminal activity including demographics, socio-economic factors, etc., then there would be no reason for all the "gun violence" or "gun control" focus on this bill. TFA will score this bill negatively for 2022 purposes.

Comment: TFA was in support of this bill but with a fiscal note of over \$3,000,000 it is unlikely to pass unless the governor includes this cost in his budget. Further, a number of people who have paid over \$500 in some instances out of pocket for lifetime permits are concerned that this legislation does not propose to refund the amounts previously charged if the state makes the lifetime permits essentially a free upgrade with this legislation.
