

A TOMMEY BURROWES PRODUCTION FOR CHILDREN'S HEALTH DEFENSE FILMS LLC

VAXXED III AUTHORIZED TO KILL

COMING SEPTEMBER 18, 2024
TO A THEATER NEAR YOU

**A DOCUMENTARY
FOR THE PEOPLE,
BY THE PEOPLE**

Children's Health Defense embarked on a **nine-month journey across America**, gathering powerful testimonies directly from the people. We heard from mothers and fathers to teenagers, family members, medical professionals, whistleblowers, lawyers, and people from all walks of life who lined up to share their stories.

What we discovered was **nothing short of horrifying**. We listened to **harrowing accounts of COVID hospital protocols** that shook us to our very core. The consistency of these stories was alarming.

People also shared their **experiences after taking the COVID vaccines**, revealing tragic outcomes of life-altering injuries and deaths. Now, fueled by these powerful firsthand testimonies, we are creating a documentary by the people, **for the people**.

Experience the film they don't want you to see.

For more information about **free tickets**
